

CONTROLS RAIN & TEMPERATURE CONTROL UNIT

DESCRIPTION

- 1-Zone Rain, Wind & Temperature control unit for 230V Actuator(s).
- Supplied complete with Digital Display (Override Switch & internal Temp.) and Weather Station (Rain, Wind & external Temp.).
- The Actuator(s) are opened & closed automatically based on the internal and external Temperature.
- When triggered the Rain and Wind Sensor will automatically close the Actuator(s).
- Digital Display and Weather Station communicate wirelessly to minimise cabling.
- Weather Station can be paired with the EVC-RC8 for remote control operation.

VOLTAGE

- 230V AC 50Hz / 1000W

INPUTS

- Rain Sensor
- Wind Sensor
- Internal & External Temperature Sensor
- Remote Control (Radio)

APPLICATIONS

- Conservatory / Orangery
- Classroom / Office / Hospital
